BREVE JUSTIFICACIÓN (Maximo 250 palabras)

Recent studies show how the most significant problem defined by CLIL teachers is the lack of appropriate materials that follow dual aims. Based on this feedback the development of CLIL materials has come to be a key constituent of teachers' methodology courses.

This course focuses on designing CLIL integrated curricula. It aims to encourage teachers to create and adapt their own teaching materials as well as to promote ideas to develop foreign language learner's creativity and motivation towards the process of acquiring a second language.

- That students know how to apply the knowledge acquired and their ability to solve problems in new or little-known environments within broader (or multidisciplinary) contexts related to their area of study.
- That students know how to communicate both their conclusions and the knowledge and

ultimate reasons that sustain them to specialized and non-specialized audiences in a clear and unambiguous manner.

General competences

- To know how to communicate about their areas of knowledge in the field of bilingual education with colleagues in the academic community and with society in general.
- To acquire basic theoretical knowledge aimed at establishing an informed teaching practice in the field of bilingual education.

Specific competences

- To design integrated curricula within their area of knowledge altogether with linguistic contents to elaborate bilingual English/Spanish teaching programmes.
- To create and adapt didactic materials for bilingual English/Spanish teaching, adjusting with sensitivity the linguistic level to the different learning rhythms, adapting the authentic material and turning it into didactic material.
- To incorporate new strategies, teaching materials and information technologies in activities in the English/Spanish bilingual classroom.
- To be able to use specialized terminology in both English and Spanish in the field of second language acquisition.
- To be able to assess, select and use appropriate literary texts for the development of linguistic competence and the approach to the socio-cultural context of FL (Spanish/English).

CONTENIDOS

The course is divided into three main sections: the elaboration process and the analysis and evaluation of CLIL materials, the selection and adaptation of texts to the student's knowledge level and the use of ICT for learning and teaching in bilingual contexts, all of them within the perspective of the communicative approach and the task-based learning.

Detailed content:

1. CLIL materials in CLIL units
2. Types of materials: reference, supplementary, coursebooks.
3. What is materials development?
4. CLIL Materials
5. Productive and receptive skills: how to select and use materials and resources in CLIL contexts
6. Evaluating CLIL textbooks
7. Personalizing CLIL lessons. ICT as a key resource within the CLIL approach.

8. Analyzing and evaluating CLIL activities, lessons and projects

METODOLOGÍA

La metodología será eminentemente práctica y participativa a través de la realización de tareas, proyectos y elaboración de los propios materiales.

EVALUACIÓN

La evaluación tendrá un carácter mixto mezclando instrumentos de naturaleza formal (actividades, exposiciones, etc.,) con instrumentos de corte informal (observaciones, participación, autoevaluación, etc.), favoreciéndose la evaluación del aprendizaje sobre la evaluación de sumativo. Se evaluará asimismo la asistencia, que es obligatoria al 80%.
